Part I: Introduction

This manual is designed to provide information about the practicum and internship in the Doctoral program in Counselor Education, Department of Counseling and Higher Education, Gladys W. and David H. Patton College of Education, Ohio University. The doctoral practicum and internship are educational experiences designed to give doctoral students in Counselor Education and Supervision a substantive work experience performing the responsibilities of a counselor educator. While both the practicum and internship experiences involve gaining advanced knowledge and experience as a counselor educator, they differ in scope and purpose.

In the doctoral practicum, students gain supervised experience (100 hours, with a minimum of 40 direct client contact hours, during one semester) under the tutelage of a counseling practitioner knowledgeable and experienced in the setting and with the clientele served.

In the doctoral internship (600 hours, which usually takes place across two semesters), students gain supervised experience addressing core doctoral curricular areas including: (a) counseling, (b) supervision, (c) teaching, (d) research and scholarship, and (e) leadership and advocacy. Students select three of the five areas and identify a counselor educator or other professional with a graduate degree and advanced training specific to the internship area to supervise the internship.
Mission of the Counselor Education Program

The mission of the Counselor Education Program at Ohio University is to provide quality instruction and supervised experience to prepare our students to learn, lead, and serve in a diverse and changing world and to contribute to our community through research, technical assistance, partnerships, training, and other related public service activities. Part II: Arranging a Doctoral Practicum/Internship Experience

Any student preparing to complete a doctoral practicum or internship must complete a Practicum and Internship Registration form (See Appendix I), to be reviewed and signed by the student’s advisor, and submitted to the Practicum and Internship Coordinator. The form is due by the end of the 6th week of the semester preceding the semester in which they plan to enroll in EDCE 8920/8915. Students must complete the form for each semester of enrollment in practicum or internship.

Please note that neglecting to complete this application may result in the postponement of the practicum or internship.

Doctoral Practicum

It is expected that students will discuss their potential placement sites with their faculty advisors, submit the application form then arrange directly with the agencies for the counseling practicum.

Licensure or Counselor Trainee (CT) Status

All students completing a practicum or a counseling internship in the area of Clinical Mental Health Counseling or CMH/Clinical Rehabilitation Counseling are REQUIRED to obtain and maintain Counselor Trainee (CT) status, if the student does not have a professional counselor/professional clinical counselor license with the Ohio Counselor, Social Work, and Marriage and Family Therapist (CSWMFT) Board. According to the OCSWMFT Board, a student cannot refer to themselves as a “Counselor Trainee” without CT status. The online and paper application can be found in the Counselor Trainee tab on the OCSWMFT website.

Liability (malpractice) Insurance

Students participating in practicum and internship, specifically counseling and supervision internship, are REQUIRED to have their own professional liability insurance and provide verification of coverage to practicum and internship course instructors. Students are NOT permitted to see clients without providing verification of liability insurance. Students can explore the following professional organizations for information and recommendations for liability insurance:

| American Counseling Association (ACA) | Ohio Counseling Association (OCA) | American School Counselor Association (ASCA) |

Doctoral Internship

Students must complete a Doctoral Internship Contract (See Appendix III), created collaboratively with their advisor based on their identified professional and career goals. The contract is a binding document to be implemented during the student’s internship experience and is evaluated by the internship supervisor(s), internship instructor and advisor. If revisions to the contract are deemed necessary by the student and advisor, the student must submit the Doctoral Internship Contract Addendum (See Appendix III) to the advisor, current internship instructor and Practicum and Internship Coordinator.
In the doctoral internship, students gain supervised experience addressing three of the five core doctoral areas. The following are approved internship experiences:

1. **Counseling**: 300-hour counseling experience, 120 hours must be direct counseling services. Note all practicum requirements also apply to the counseling internship.
2. **Supervision**: 100-hour supervision experience, 40 hours must be direct counseling supervision.
3. **Teaching**: 200-hour undergraduate/graduate teaching internship as Instructor of Record or 100-hour graduate co-teaching internship with a Faculty Instructor.
4. **Research and Scholarship**: 100-hour research internship conducting a qualitative/quantitative empirical study.
5. **Leadership and Advocacy**: 100-hour consultation project or 100-hour counseling leadership and/or service experience.
Part III: Supervision of Doctoral Practicum and Internship

Supervision
Supervision of practicum and internship includes program-appropriate audio and/or video recordings, live supervision, presentations, etc. of the students’ experience. For the practicum and internship experiences, supervision will be twofold. Supervision will be provided by a site supervisor as well as a faculty instructor. Depending on the type of supervised experience, presentation requirements should include:

1. **Counseling**: case conceptualizations presented with audio/video recordings of client sessions or review of live supervision information.
2. **Supervision**: supervisee conceptualizations presented with audio/video recordings of supervision sessions or review of live supervision information.
3. **Teaching**: teaching reflection and recorded teaching segments.
4. **Research and Scholarship**: research colloquium.
5. **Leadership and Advocacy**: consultation project colloquium and/or presentation of leadership/service activities and outcomes.

The site supervisor is an experienced person with advanced training who oversees the student’s practicum and internship work conducted at the site. The site supervisor will have weekly interaction with the student that averages one hour per week of individual and/or triadic supervision throughout practicum and internship.

Supervision of Practicum and Counseling Internship

In accordance with the Laws and Rules (2014) of the Ohio Counselor, Social Worker, & Marriage and Family Therapist Board, for the supervision of counselors in training (all specialties), training supervision facilitated by the site supervisor is expected to include an average of one hour of face-to-face contact for every twenty hours of work completed by the student counselor in training (rule 4757-17-01).

**Site Supervisors Qualifications**: A supervisor must meet all 5 qualifications.
1. A master’s degree, preferably in counseling, school counseling, clinical rehabilitation counseling, or a related profession;

Program Faculty Group Supervision
Students enrolled in the practicum or internship course will receive an average of 1.5 hours per week of group supervision throughout the semester in which they are enrolled. A counselor educator faculty member facilitates group supervision for practicum and internship courses, which is not to exceed 12 enrolled students.

Group supervision provides the opportunity for peer consultation and education around roles and responsibilities as counselor educators. The Practicum and Internship courses allow time for each student to present at least twice for peer supervision and feedback.
Part IV: Doctoral Practicum

Doctoral students complete a 100-hour supervised counseling practicum. Because this is a doctoral practicum, the counseling experience should differ from the focus of the student’s master’s level practicum/internship and professional experiences (e.g., setting, population, type of services provided). Students will work with their faculty advisor and Practicum and Internship Coordinator to identify potential sites to enhance or extend their master’s training. The doctoral practicum corresponds to the following standards of the Council for Accreditation of Counseling & Related Programs (CACREP VI.C.1-6).

It is expected that students will complete their practicum by distributing their time in the practicum site over the course of one semester. In addition, the counseling practicum student is required to attend the counseling practicum course with a counseling education faculty member.

Practicum Experience

1. Students will complete a 100-hour counseling practicum (40 hours must be direct counseling services) conducted throughout the semester, averaging approximately 10 hours a week on site.
2. Students will participate in an average of 1.5 hours of weekly group supervision in EDCE 8920: Practicum in Counselor Education in which to receive ongoing feedback on specified doctoral competency areas (CACREP, VI.B.1.a-f) in counseling and professional development as a counselor educator:
   a. scholarly examination of theories relevant to counseling
   b. integration of theories relevant to counseling

   e. methods for evaluating counseling effectiveness
   f. ethical and culturally relevant counseling in multiple settings
3. Submit all required documents to LiveText during practicum and internship. The documents include, but are not limited to, a log of experiences, the competency checklist, journals (a written description of the specific activities undertaken during the experience), proof of insurance coverage and supervisory evaluations. Students will provide documentation to the instructor each week for review, and will keep their materials and submit documentation to LiveText prior to the conclusion of the practicum and internship experience. Students are advised to keep copies of everything submitted or mailed to various licensure or professional organization boards. It is the student's responsibility to consult with the university supervisor to ensure clarity on which documents are required, which may differ based on the area of specialization.
4. Discharge all responsibilities at the partnering agencies/schools in a professional manner. Specifically, the student must adhere to all conduct rules applicable to the agency/school's employees as well as the state and national boards of the profession. This includes appropriate fees, punctuality, and responsible use of time while on site, etc.

RECORDING VERIFICATION FORM
Recording Verification Form

Because client confidentiality is of the utmost ethical and legal importance to us, we do not maintain client identification in our students’ records- including consent forms with a client’s signature. This is because while consent to record and release other information may expire; we want to guarantee that an identity is not inadvertently archived as part of a student’s record here at the university. For this reason, client authorization for recording and class related supervision such as case consultation for student professional development purposes is maintained only in the agency file.

This form is to verify that the student has obtained consent either to present a recording to a clinical internship class for consultation, or to discuss a case. By signing this form, you are verifying that there is an authorization on file at your agency. If you have any questions, you may contact the instructor of the course:

Counseling Competencies Scale—Revised (CCS-R)©
(Lambie, Mullen, Swank, & Blount, 2015)

Permission obtained from: Glenn W. Lambie, Ph.D. (Glenn.Lambie@ucf.edu)

The Counselor Competencies Scale—Revised (CCS-R) assesses counselors’ and trainees’ skills development and professional competencies. Additionally, the CCS-R provides counselors and trainees with direct feedback regarding their demonstrated ability to apply counseling skills and facilitate therapeutic conditions, and their counseling dispositions (dominant qualities) and behaviors, offering the counselors and trainees practical areas for improvement to support their development as effective and ethical professional counselors.

Scales Evaluation Guidelines

- **Exceeds Expectations / Demonstrates Competencies (5)** = the counselor or trainee demonstrates strong (i.e., exceeding the expectations of a beginning professional counselor) knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).

- **Meets Expectations / Demonstrates Competencies (4)** = the counselor or trainee demonstrates consistent and proficient knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s). A beginning professional counselor should be at the “Demonstrates Competencies” level at the conclusion of his or her practicum and/or internship.

- **Near Expectations / Developing towards Competencies (3)** = the counselor or trainee demonstrates inconsistent and limited knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).

- **Below Expectations / Insufficient / Unacceptable (2)** = the counselor or trainee demonstrates limited or no evidence of the knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).

- **Harmful (1)** = the counselor or trainee demonstrates harmful use of knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).
